Part II: KHD Key Roles in Project

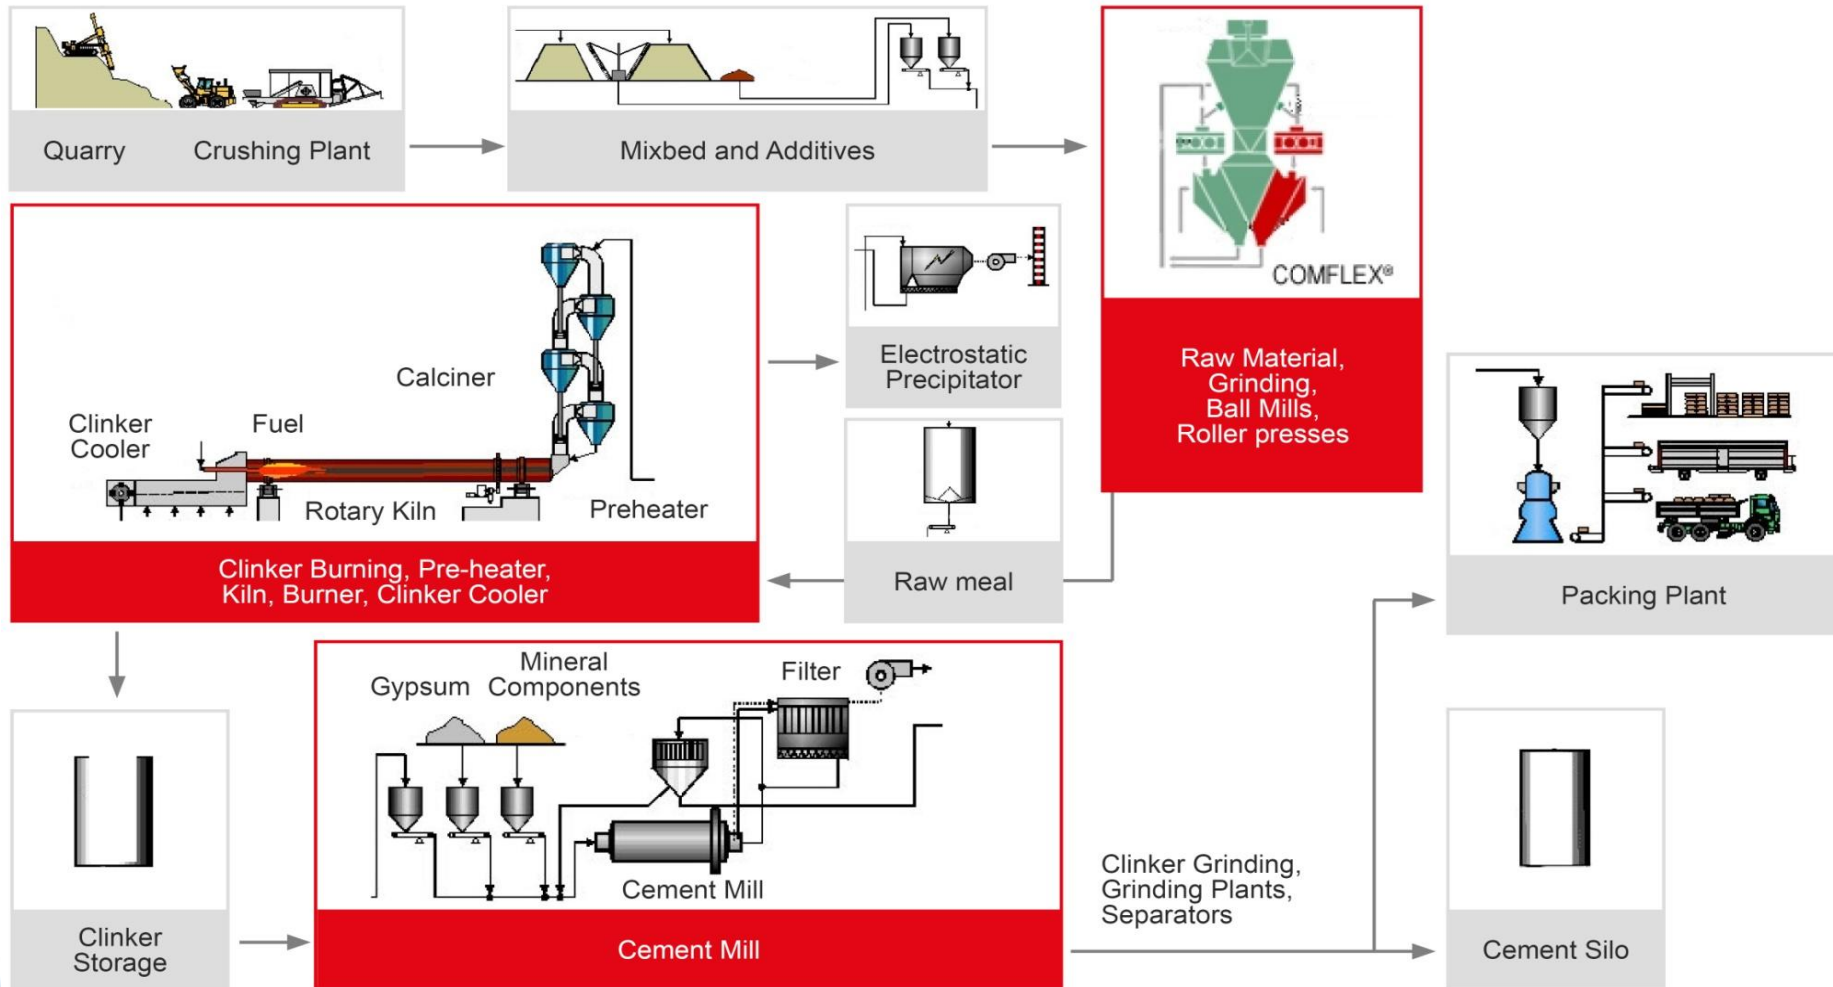

About KHD

- Humboldt Group (KHD Humboldt Wedag International Ltd) was established in 1856 with headquartered in Cologne, Germany.
- KHD today is a technology focused process engineering and project execution company that sells customized products in the capital goods sector, mainly in the cement sector.
- KHD is one of the world largest suppliers of cement plant core equipment, with more than 700 employees worldwide.
- KHD has proprietary technology in Pyroprocessing and Grinding, the core equipment in any cement plant.
- Manufacturing is totally outsourced. **KHD has established a Procurement Center in China jointly with AVIC in 2011.**

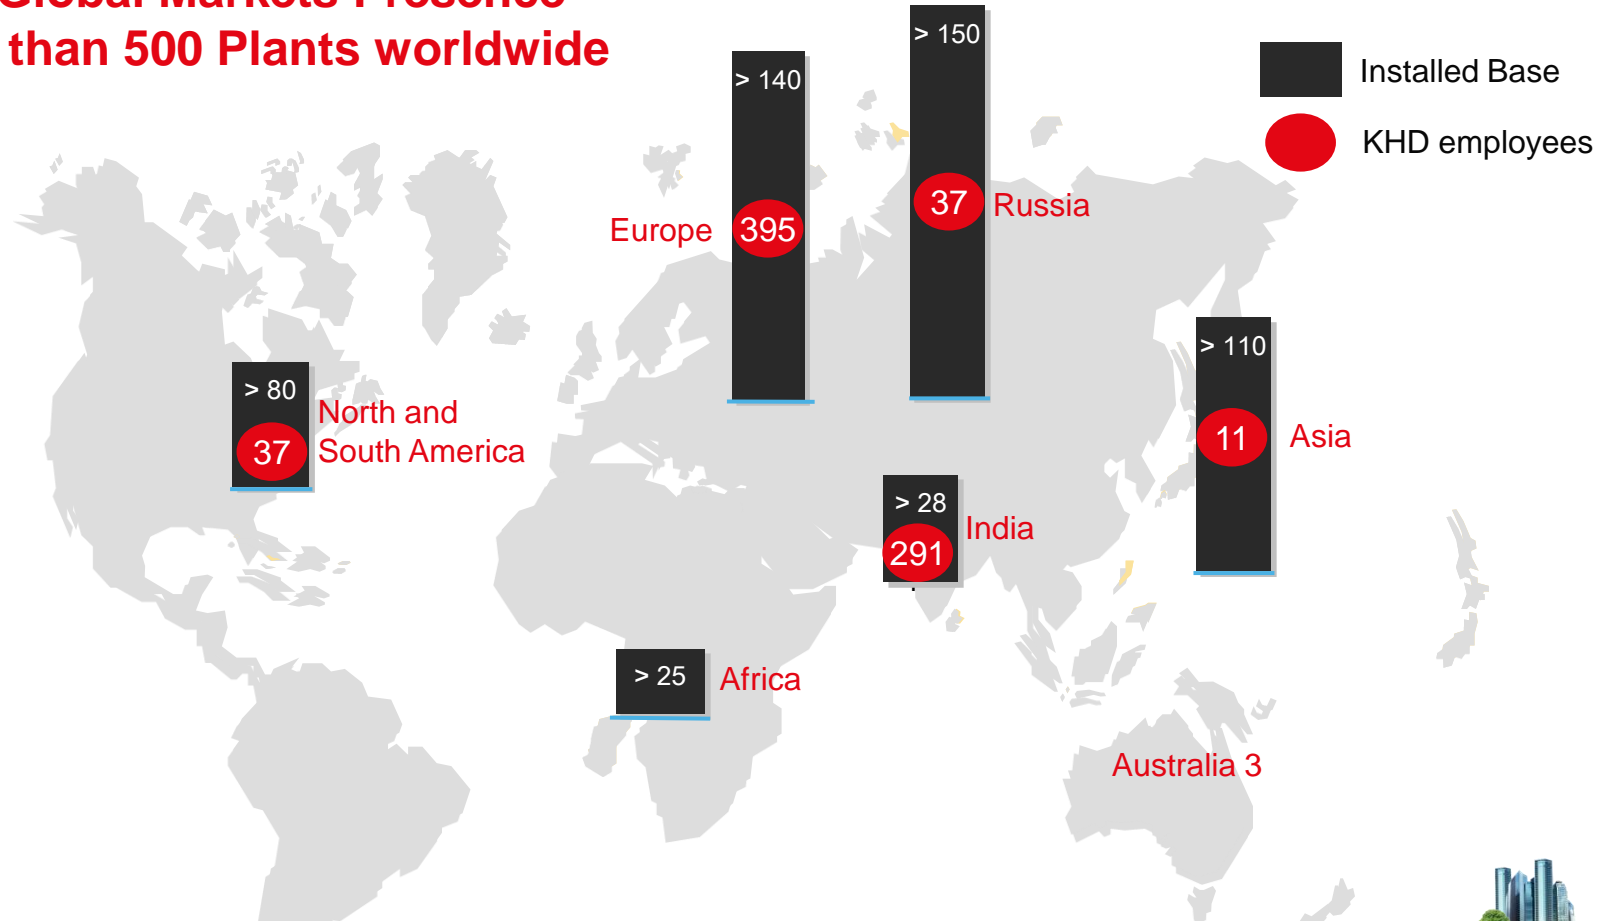

KHD Core Competencies

Supplying core equipment over 50% of an entire cement plant

KHD Installed Bases

**KHD Global Markets Presence
more than 500 Plants worldwide**

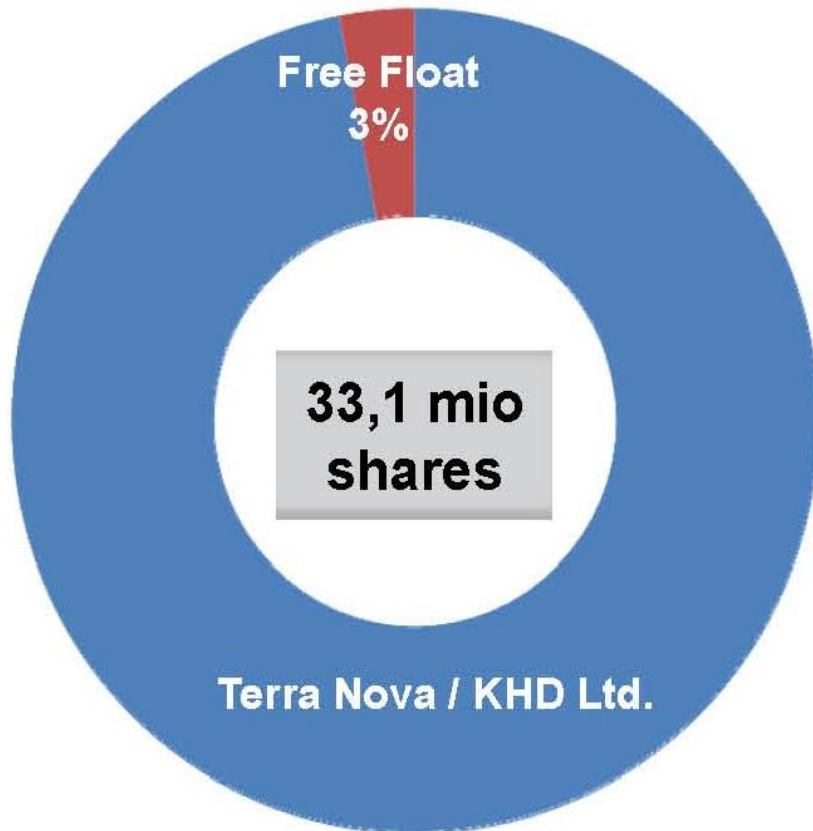

. KHD has built over 500 cement plants all over the world.

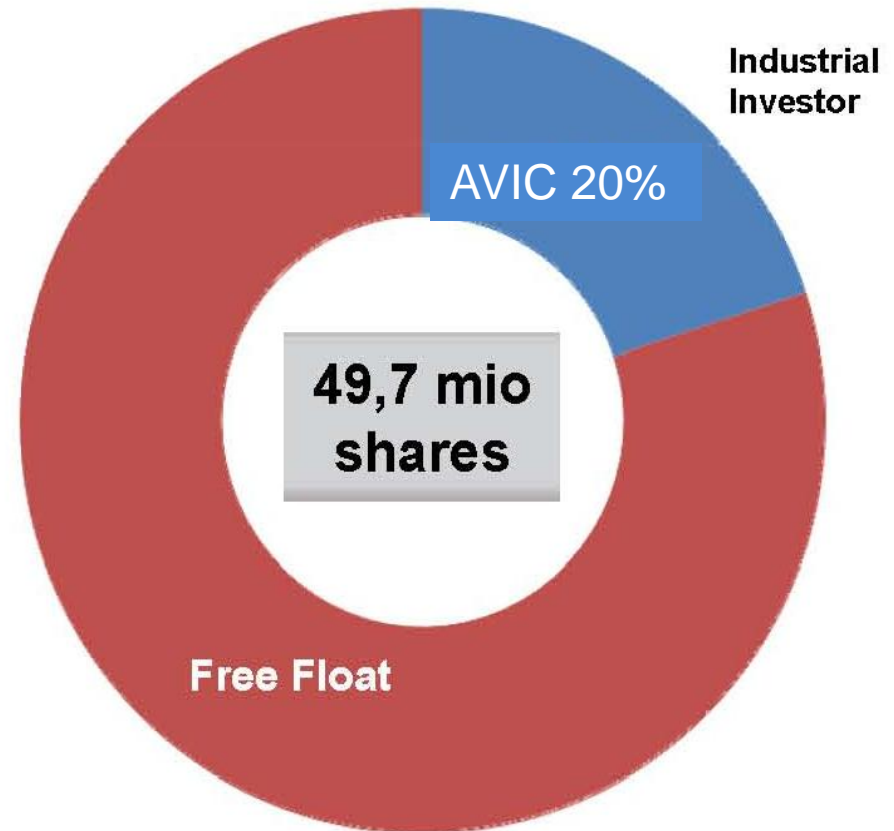

KHD Share New Structure in Year 2011

2009

End Feb 2011

AVIC acquired 20% share of KHD in early 2011.

A New Worldwide Player for Cement Plant EPC Projects

- Technical leadership in the cement process
- Core equipment for cement plants
- Close to customers with Customer Service Centers in EME, APA (future), India, CIS/Russia and N. America
- Very experienced global team
- Strong financial background

- EPC expertise in the cement sector
- Represented in over 30 countries and 56 locations
- Access to Chinese cement market
- Low-cost sourcing for auxiliary equipment and fabrication
- Strong financial background with access to financing

win -win

By combining the best of East and West, customers have another EPC option for cement plant projects

Opens Chinese market, which is 50% of global cement capacity markets

Will strengthen position in emerging markets.

Increases competitiveness

河南建筑材料研究设计院有限责任公司

Henan Building Materials Research & Design Institute Co., Ltd.

- Established in 1973
- A scientific research and design unit with the abilities of the engineering design, consultation, scientific research, quality surveillance and examination, project supervision
- First- class qualification in engineering design of building materials industry and consultation
- 210 persons - 150 professional technicians, among them 58 senior engineers (2 persons with government subsidy) and 68 engineers.
- Have won 38 awards in engineering design , scientific research and development and technical innovation projects from our government
- Finished 221 engineering designs, 182 scientific research projects, and 446 items of technical consultation, technical service, technical development, technical transfer projects.

湖北华盛建设有限公司

HUBEI HUASHENG CONSTRUCTION CO., LTD

- Founded in June, 2003
- Full qualification including construction, steel structural engineering, electromechanical equipment installation and installation for chemistry and petroleum pipe line.
- 175 managerial staff for various specialties and 359 sets large or medium machines, and the company has an annual construction capability to be more than USD30million.

Civil Work: Hubei Huasheng Construction Co.

S.N.	Project Name	Capacity	Commissioning Time	Scope
